McQuinn, Browns' First Baseman, Knocks Ball Over Right Field Pavilion

By Jack Hand
SPORTSMAN'S PARK, ST. LOUIS, Oct. 4.—(P)—George McQuinn's 4th-inning home run gave the Browns a 2 to 1 victory over the Cardinals in the opening game of the World Series before 33,242 fans today.

By Jack Hand
SPORTSMAN'S PARK, ST. LOUIS, Oct. 4.—(P)—Leaky skies that let forth intermittent showers during early morning failed to dampen the enthusiasm of this old river city for its first all-St. Louis world series today with Managers Billy Southworth of the Cards and Luke Sewell of the Browns sticking by their original pitching selections of Morton Cooper and Denny Galehouse.

Three hours before game time at 2:00 p. m. (central war time), the rain had let up but a heavy haze hung over the field and workmen were busy putting the finishing touches on the damp infield that had escaped most of the moisture under its heavy tarpaulin covers.

Unreserved sections seating approximately 7,000 were about one-third full and early bird standees were prepared for a long wait with piles of cushions to soften their long vigil.

As the National league champs left the field after an hour's workout, Litwhiler said he would be able to start.

Browns Get Hand
The shirt-sleeved bleacherites gave the Brownies the biggest hand of the day when they went into their hitting routine with Sewell announcing he would stick with the same lineup that ended the season in a spine-tingling pennant victory.

Chet Laabs, who won Sunday's with two home runs, belted the first pitch into the left field stands. Vern Stevens followed suit and Gene Moore cleared the right field pavilion with another clout. It began to look like a sellout 45 minutes before game time with blue skies encouraging hesitant fans. The reserve section, sold out days ago, was beginning to fill rapidly.

Sgt. Enos Slaughter, on furlough from San Antonio, donned a Card uniform and joined his former mates in the pre-game action.

World Series News Briefs

CHICAGO, Oct. 4.—(P)—Baseball Commissioner Kenehan M. Landis, a patient at St. Luke's hospital, joined with thousands of baseball fans today who were unable to attend the opening World Series game at St. Louis and prepared to hear a radio report of the contest.

The condition of the 77 year old Landis, missing his first series since he was named to his post in 1920, is not serious, hospital attendants said. He is suffering from a cold and was advised by physicians not to attend the series.

ST. LOUIS, Oct. 4.—(P)—Weatherman Harry Wahlgren took no chances of making a false prediction on the atmospheric conditions for today's opener. He went on his vacation and left the forecasting job up to his assistant.

Although this is the third straight series for the Cardinals, eight of their 22 eligible players will be competing in the classic for the first time. They are Pitchers Bud Byerly, Ted Wilks, Fred Schmidt, Al Jurisich and Blix Donnelly; Outfielder Augie Bergamo, Infielder Emil Verban and Catcher Bob Keely. Pepper Martin, the old "Wild Horse of the Osage" is tops in series experience. This makes his fourth.

A federal grand jury in town voted a week's recess yesterday. U. S. District Attorney Harry Blanton explained the jurors wanted to be sure to see the ball games.

Frankie Crespi, former Red Bird second baseman now in the army, is here for the big affair. Upon his arrival yesterday he learned that his brother, Angelo, is missing in action in Italy.

Denny Galehouse, Browns starting pitcher for the first game, has a lifetime major league record of 81 victories and 88 defeats. His opponent today, Mort Cooper owns 109 triumphs and 50 defeats.

Pfc. Pete Reiser, who won the National league batting championship in 1941 while with the Brooklyn Dodgers, watched the Browns work out yesterday without changing his National league prejudice. Reiser is stationed at Ft. Riley, Kas. His home is St. Louis.

Sedalian's Nephew Killed in Action

Pvt. Edward Timbriorous, son of Henry Timbriorous, Fort Madison, Ind., and nephew of S. J. Timbriorous, 404 Wilkerson street, was killed in action in Italy on September 20. S. navy somewhere in the Pacific.

These figures do not include the thousands of pounds of supplies flown in by the British troop carrier forces.

Supplies by Air to China

WASHINGTON, Oct. 4.—(P)—American airmen flying 20,000 tons of military supplies a month over "the hump" into China are, in the opinion of President Roosevelt, performing one of the amazing epics of the war.

Making an indirect reply to an assertion by a Chinese government spokesman who termed United States aid to his country "pitifully inadequate," Mr. Roosevelt told his news conference yesterday:

1. In a year and a half American transport crews pushing their heavy planes through the skies against Japanese attacks, but for boosted monthly freight hauls into China from 2,000 to 20,000 tons—munitions, fuel and medical supplies.

2. America's 14th Air Force—considering its size and supplies—has poured an amazing amount of destruction onto the Japanese.

3. The Chinese feel they can get more supplies from us, but for the president's part, he is satisfied with the job the freight-hauling airmen are doing.

Wage Increase Inquiry

WASHINGTON, Oct. 4.—(P)—A congressional inquiry into the advisability of raising the nation's minimum wage level from 40 to 65 cents an hour was announced today by Senator Pepper (D-Fla.). Pepper, chairman of a special senate labor subcommittee, said he would call labor, business and government officials for hearings starting next Wednesday.

'Al' E. Smith Dies Early Today in NY

Four Times Governor Of New York, 1928 Democratic Candidate For President

NEW YORK, Oct. 4.—(P)—Alfred E. Smith, 70, native of New York City's East Side, four times governor of New York State and 1928 Democratic Presidential candidate, died today.

Alfred E. Smith

Death came to the man who made the brown derby famous at 6:20 a. m. (EWT) in Rockefeller Institute. Dr. Raymond P. Sullivan, his physician, said lung congestion and acute heart failure were the causes. He had been transferred to the Institute Sept. 23 from St. Vincent's hospital where he had been treated for an intestinal and liver disturbance since Aug. 10.

Only last night a dozen red roses arrived at the hospital for him from President and Mrs. Roosevelt. It was Mr. Roosevelt who nicknamed Smith the "Happy Warrior" when he nominated Smith for the presidency in 1928.

The close political and personal friendship between Mr. Roosevelt and Smith cooled, however, in 1936 when Smith took what he called "a walk" from Mr. Roosevelt and the Democratic party and supported Alf Landon for the presidency. He again opposed the New Deal in 1940, stumping for the Republican candidate, Wendell L. Willkie.

Smith had not taken an active part in politics in recent years, devoting himself instead to management of the Empire State building and aiding in bond drives and other.

Al Smith Was 'True Patriot' States FDR

WASHINGTON, Oct. 4.—(P)—President Roosevelt said today that with the death of former Gov. Alfred E. Smith of New York "The country loses a true patriot."

In a statement issued at the White House, Mr. Roosevelt said: "The nation mourns the death of the Happy Warrior."

"Al Smith had qualities of heart and mind and soul which not only endeared him to those who came under the spell of his dynamic presence in personal association but also made him the idol of the multitude."

"To the populace he was a hero. Frank, friendly and warm-hearted, honest as the noonday sun he had the courage of his convictions. Even when his espousal of unpopular causes invited the enmity of powerful adversaries."

"During his tenure as governor of the great state of New York, he attracted national attention by his skill as an administrator. It was a natural sequence that he should become the candidate of his party for the highest office in the land. In a bitter campaign, in which his opponent won, Al Smith made no compromise with honor, honesty or integrity. In his passing the country loses a true patriot."

Purple Heart Is Sent Home

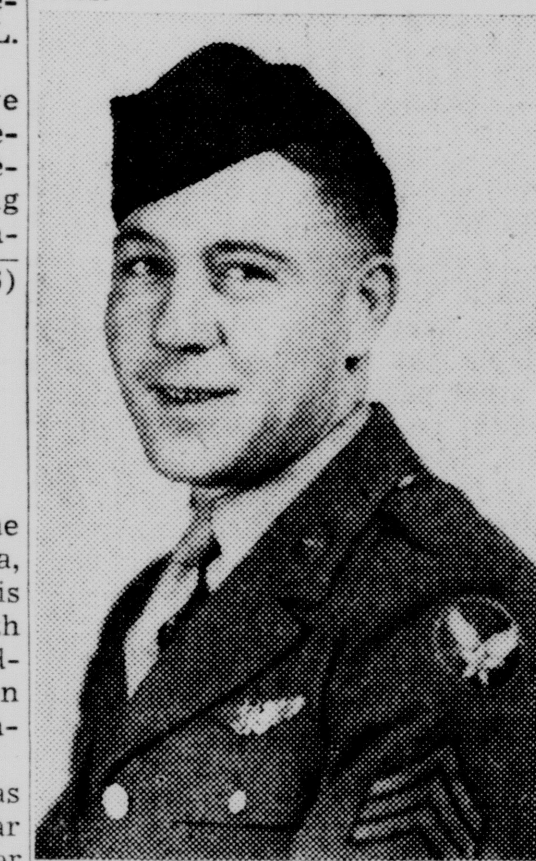

Mr. and Mrs. M. O. Hart, 721 East Ninth street, were sent a week ago the Purple Heart awarded their son, Pvt. William L. Hart, for injuries received in France August 1. He was flown to a hospital in England and, according to word received from him Tuesday morning, he is improving but still unable to use his right hand.

A short time ago Mrs. Hart was the recipient of a table cover made by her son while in the hospital. On first inspection, she states, it appears to be made of squares of white chenille, but yarn is the material actually used.

Pvt. Hart went overseas the latter part of January and was sent to France June 16.

Reds go West From Belgrade

By Daniel De Luce
MOSCOW, Oct. 4.—(P)—Russian machine gunners in American jeeps, with Yugoslav Partisans acting as guides, speared westward along the Danube less than 20 miles from Belgrade today.

Nearly all Yugoslav territory east of the big elbow formed by the confluence of the Danube and Tisza rivers was reported swept clean of German resistance by Red army forces advancing like a flood from the foothills of the Transylvania Alps more than 50 miles beyond the Danubian iron gate.

Scouts of Marshal Tito's Partisan army ferried across the Danube to meet the Russians on the northern bank and help lead them westward toward the Yugoslav capital, field dispatches said.

On the map the Russian drive looked like an arc, one flank of which was hinged on the Danube several miles west of Bela Crkva. The other reached nearly to the Tisza east of Petrograd. The enemy garrison in Belgrade seemed shortly due to be gripped in a pincer.

Allies Smash Oil Center In the Pacific

U. S. Warplanes Attack Threatening Enemy in China

By Leonard Millman
Associated Press War Editor

American warplanes crowded into their only remaining air base in southeast China maintained a constant attack on threatening Japanese columns today while U. S. bombers in the Pacific, operating from an ever increasing number of fields, smashed "the most lucrative strategic target in the Pacific"—Borneo's Balikpapan oil center.

The plight of American airmen driven from half a dozen evacuated fields to the Liuchow air-drome lent support to Tokyo propaganda broadcasts that "this is to be a long war."

Gen. Douglas MacArthur, who is expected to lead the Philippine invasion, announced 60 of his army Liberators had scored telling blows and left huge fires raging at Balikpapan, Japan's "most important source of aviation gasoline and lubricating oils."

The Liberators, from the 13th air force's "Bomber Barons," fought their way through 30 interceptors to loose 74 tons of explosives on the Pandasari gasoline refinery towers and the paraffin refinery. It was a record load for such distance. Seven interceptors and three Liberators were shot down.

"It was a murderous job," said Lt. Donald E. Bone of Garland, Utah, one of the squadron leaders on this fifth raid of the war on Balikpapan.

Target Needed

MacArthur said, "Destruction of this target curtails drastically and

American Tanks Rumble into Breach Torn in Siegfried Line, Then Fan Out

By James M. Long

LONDON, Oct. 4.—(P)—American tanks rumbled into a 2½ mile breach torn in Germany's Siegfried line above Aachen and fanned out, bringing their guns and armor into support of a Doughboy drive against backstop defenses guarding Cologne.

The First army smash had carried two miles into Germany itself AP Correspondent Don Whitehead reported. Supreme headquarters earlier declared the drive had carried three miles beyond Ubach, a mile inside the frontier, to one of the enemy's main escape roads above Aachen.

Infantrymen had torn the broadening hole in the west wall defenses, beating off three German counter blows.

U. S. Third army men 125 miles to the south fought as bitterly at Fort Driant, strongest of the ring of fortresses guarding Metz. Supreme headquarters announced capture of the fort, but a later front dispatch said doughboys were clinging to surface positions in the fort, which is honeycombed by tunnels, against increasingly furious enemy resistance.

The Americans broke into the fort on the Moselle river's west bank after a two-day battle, and set fire to crude oil sprayed into tunnels to underground fortifications in efforts to burn out the Germans. Other units captured Mazieres les Metz, seven miles north of Metz.

Fight to Widen Breach

The U. S. First army above Aachen fought with air and artillery support to widen their new breach in the German west wall defenses. The Germans were firing artillery in the heaviest concentrations of the invasion.

The First army battled along a main escape road north of Aachen, and was cutting off that stronghold city in developing its wedge. Lt. Gen. Courtney Hodges' First army struck on east of Ubach, taken in breaching the Siegfried line. Its units fought along and across the main northeast road from Aachen to Gladbach. Aachen (Aix-la-Chapelle) already was flanked on the south by the first major breach in the west wall line.

First Army Gains

A front dispatch said the First army still was gaining on this third day of its new offensive and the Germans were reforming the stragglers into new battle groups. The battle was for German positions backstopping the Siegfried line in this area.

Doughboys smashed a German counterattack in company strength at dawn against the wedge driven three miles east of Ubach. The First army was moving ahead in that sector, knocking out the road blocks.

At Dunkerque, last channel port held by the Germans, a 49-hour truce permitted evacuation of civilians before the final assaults by British and Canadian troops eager to avenge the memory of the Dunkerque withdrawal in 1940.

On the Dutch front, British troops repulsed a German attack north of Nijmegen, and Allied forces at Overloon to the southeast cut down half of the Germans who mounted an assault there. In Belgium slow advances were scored northeast of Antwerp.

On the southern sector in France, the U. S. Seventh army took three villages northeast of Epinal. Progress also was scored northwest of Belfort in the resuming push toward that gateway to southwestern Germany.

While the American First army had completely penetrated the Siegfried line above Aachen, a First army officer said, more defenses lay ahead. But these were new and rushed, and probably less strong than the broken crust.

Advocates A Change In The Tax Structure

Dewey For The Revising Of The Federal System

By Jack Bell
 ALBANY, N. Y., Oct. 4—(P)—Gov. Thomas E. Dewey proposed Tuesday night the reduction of individual and corporation income levies as part of complete overhaul of the federal tax system he said must be accomplished after the war to remove "a road-block in the way of progress."

In an address prepared for delivery over a nationwide radio hookup (Mutual), the Republican presidential nominee asserted that while the nation cheerfully pays high taxes to meet the cost of the war, its peacetime objectives of expansion and recovery could not be obtained "by taxes which eat into the income of those who are already below a decent American standard of living."

Program Suggested

Assailing the New Deal for what he said were 15 changes in the revenue laws in 12 years, he proposed this program if the Republicans win in November:

- (1) Revision of personal income tax exemptions "so that the man who makes as little as \$11 a week no longer has an income tax taken out of his pay envelope."
- (2) Reduction of personal income tax rates.
- (3) Revision and lowering of the income levy on corporations "until it no longer acts as a drag upon production and a barrier to jobs," with attendant elimination of "special war time taxes which now rise to 95 percent."
- (4) Elimination "as soon as possible of excise taxes, except those on alcoholic beverages, tobacco and gasoline."
- (5) Complete overhaul of "existing, confused and complicated tax laws" and the creation of "a basic tax law which can be expected to remain simple and generally stable."
- (6) Establishment of a "consistent national tax policy—one directed toward achieving full employment and a rising national income."

Need Large Revenues

Dewey said that in the postwar years, with a national debt of three hundred billion dollars, large federal revenues would be needed.

"But it is stupid to suppose," he said, "that we can support our government by levying heavy taxes upon a dwindling national income. Our first aim must be to increase our national income by putting to work all of the productive resources of our country—industry, labor and agriculture."

It was far better, he said, to have a low tax rate with a national income of one hundred fifty billion dollars than to have a high rate with a national income of seventy-six billion dollars "as we had under the New Deal at its peacetime best."

GERMANY WILL TRY IT AGAIN

By Sigrid Schultz Copyright, 1944 by Sigrid Schultz Distributed by NEA Service, Inc.

As an American newspaper correspondent in Berlin from 1919 to 1941, Sigrid Schultz saw at first hand the events that led from World War I to World War II. And she saw the behind-the-scenes preparation for the coming "war-in-peace" that she warns may culminate in World War III. This is the story of Germany's plans to win the peace, plans that even now are being put into effect.

THE German secret general staff under Ludendorff worked with such speed and energy that within less than six months after the German army asked for an armistice in 1918, the secret circle had succeeded in the following preparations for its own rule and for a future war:

It controlled all official army offices.

It controlled the unofficial armed veterans of the Free Corps, who were spoiling for a fight.

It controlled key positions in all universities and government offices.

It had induced Germany's main industrial concerns to prepare with it the planned total war.

It managed to cry murder at the mention of Bolshevism and at the same time to work in the diplomatic, military, and economic fields hand in hand with Moscow.

Anyone who went about Berlin in November of 1918 knows how close the Soviets came to proclaiming their rule in Germany. In the brief period of pre-revolutionary unrest in Russia, German agents there had been as thick as raisins in a pudding.

They had plenty of money to spend. Russia returned the compliment in 1918.

I saw Communist agitators haranguing the desperate masses in the streets of Berlin. And the people had every reason to be des-

perate. They were cold and hungry and their soldiers had fought in vain. I saw a ravenous mob slaughter a starving horse where it fell, and carry away dripping slabs of meat. I saw half-grown rowdies attack uniformed officers, and hysterical women try to yank off their mustaches or beards. I hurried through the Berlin streets under a crossfire of Red guns on one side and Republican soldiery on the other.

Confronted by famine and inflation, fighting Communists with the left hand and reactionaries with the right, trying to comply with Allied demands and, at the same time, to stabilize the economy of a country exhausted, disrupted by four years of war, with the upper classes offering at their best a passive resistance, the German Republican leaders had every reason to be awed by the problems ahead. In solving most of them as well as they did, in even surviving as long as they did, the Republicans achieved a near-miracle.

Most of them realized, even at the beginning, that it was foolhardy to continue in office men of the former autocratic imperial regime. But they had no men trained to replace them. So the old appointees stayed on: in the judiciary, the judges who interpreted the law to the Republic's disfavor; in the Reichsbank, the men who intensified and manipulated the inflation to their own purposes; in the Finance Ministry; in the War and Navy offices; enemies of the Republic too numerous to mention.

THE groups which sincerely hated all that the Republic stood for had two other things in common. First, they were upper-class Germans. The caste system has been breaking down gradually in more recent years, but in 1918 and 1919, its imprint could be seen wherever one went. Most of the Republican leaders were men and women of the lower or upper

middle classes. Their knowledge of the minds of upper-class Germans was limited. That was one reason why they could be fooled by the men supposed to be working with them.

Second, most members of the inimical groups had had access to higher education, which made them part and parcel of the pan-Germanic order.

To non-Germans the medieval symbolism of German universities even seemed old-fashioned and slightly ridiculous. But their hold on the national mind had not loosened, because to Germans they spoke of a Greater Germany. Both teachers and students believed fiercely in Germany's right to rule the world.

Not only in scholastic confines was the word spread and embellished. Many ordained men of God did everything they could to discredit the Republic.

Through both the school and the church, then, the home was contaminated with a hatred of the Republic. Hatred is contagious, and when women start to hate, they do a thorough job. They also infect their children.

Always after wars, when people have lost many of their loved ones, belief in the mystic encourages a mushroom growth of astrologists, fortune-tellers and what have you. Superstition can be an ally, and the German militarists made it one, lining up the soothsayers as their unofficial prophets.

Everywhere one heard of the impending collapse of the Allies, often from relatives of officers, who nearly as often were the mildest looking old ladies. The Germans are nothing if not logical, no matter how unsound their premises. So, the Allies divided, England tottering and on the brink of disintegration logically what then? Why, soothe—always very soon—Germany would step in, finish of the British Empire and take over the leadership of the world.

Childish the method undoubtedly was; it was also fantastically effective. For word-of-mouth propaganda spreads fast, and who doesn't want to belong to a master race?

Bill To Dispose Of Surplus War Goods Signed

Board Be Set Up To Supervise The Disposition

WASHINGTON, Oct. 4.—(AP)—Pres. Roosevelt Tuesday signed a bill "with considerable reluctance" legislation setting up reconversion machinery designed by congress to help guide the nations business and manpower from war to peace.

Two measures were signed into law by Mr. Roosevelt. One set up a surplus property administration to dispose of an estimated \$100,000,000 worth of surplus war goods; the other created a mobilization and reconversion agency to replace the Office of War Mobilization headed by James F. Byrnes.

The President told his news conference Byrnes had agreed to continue as head of the new agency until a successor can be nominated when congress returns from its recess Nov. 14.

Byrnes said he does not want the job permanently. Mr. Roosevelt said the surplus property bill creates a "danger that the confused methods of disposition and the elaborate restrictions imposed by the bill will in many instances delay rather than expedite reconversion and reemployment."

The measure creating the mobilization and reconversion agency was termed inadequate by the President, who added that it does not adequately deal with the "human side of reconversion."

"I am glad to know," he continued in a statement, "that the chairman of the house ways and means committee has announced

that his committee will give consideration to further amendments x x x and I hope that the deficiencies which I have pointed out in the bill before me will be promptly rectified."

A three-member board, to be appointed by the President and confirmed by the senate, will supervise the handling and disposition of surpluses, including their transfer between government agencies, a job presently handled in a more limited way by surplus property administrator Will L. Clayton.

Under the new setup the President would designate one of the three \$12,000-a-year board members to serve as chairman in carrying out 20 over-all objectives.

The measure directs the board to designate a limited number of government agencies to dispose of plants and goods, except that the

Maritime Commission is given full authority over surplus vessels.

Under the bill—a compromise between original senate and house versions—the board may not sell any aluminum, magnesium, synthetic rubber, chemical, gasoline or iron and steel plants or oil pipelines costing \$5,000,000 or more without 30 days notice to congress. Such facilities may, however, be leased for a period up to five years.

Creating the Office of War Mobilization and reconversion was "quite satisfactory" so far as it went, Mr. Roosevelt said in a statement, but it did not "adequately deal with the human side of reconversion."

He observed that the bill as finally enacted failed to provide for transportation of migratory war workers back home or to places of new employment, failed to establish nation-wide minimum

standards for unemployment benefits.

The measure leaves unemployment compensation to the states.

Added Two Years To Draft Defier

KANSAS CITY, Kas., October 4.—(P)—Arthur Goodwyn Billings, 33-year-old Socialist candidate for senator from Kansas and central figure in a draft law test case which he finally won before the U. S. supreme court, was sentenced to two years in prison Tuesday after he pleaded guilty to a charge of refusing to submit to induction in the armed forces.

Billings, tall, lanky resident of Delphos, Kans., contended in the federal court today that he did not evade the draft law but defied it. Judge J. Foster Symes, presiding, asked him if he would enter the armed forces now.

"No, sir, under no circumstances," the former teacher of economics at the University of Texas replied.

"Then you will serve two years more in prison," the judge stated. Billings refused to take the army oath after he had been taken to the Fort Leavenworth induction center with other inductees from his Minneapolis, Kas., board in August, 1942. Because of his refusal to take the oath, he was committed to the post guardhouse and remained there 21 months while he carried his appeal to the supreme court. His contention

that he remained a civilian was upheld by the high tribunal and he was granted the right to a civil rather than military trial. He maintained at the time that he was denied classification as a conscientious objector on the ground that his objection to war was on a "rational rather than religious ground."

THE DYNAMO V

Merry-go-Round

LOWVILLE, N. Y., Oct. 4.—High up Republicans aren't saying anything about it, but they are sore as blazes at one of the staunchest party members, Albert Lasker, for deserting to Roosevelt.

Lasker, former head of one of the top advertising firms in the United States, was one of the managers of Warren Harding's campaign in 1920 and, as a reward was made chairman of the shipping board. He has been one of the inside advisers in the Republican party councils almost ever since, and three times voted against Roosevelt. This time, however, he says he will vote for Roosevelt.

Allice Roosevelt Longworth, one of his old friends in the Harding administration, has argued with him. So has Mrs. Ogden Reid, the vice president of the Republican New York Herald Tribune. They have called him a "traitor" and all sorts of things. But Lasker has stood pat.

He says there are a lot of things that smell bad about the Roosevelt administration, and sometimes he has to hold his nose.

"In fact," says Lasker, "it's a choice between holding your nose with Roosevelt, or closing your eyes to Dewey. But," he concludes, "I've never walked over a cliff holding my nose."

Japs Move to China

It is no longer a military secret that the war in the Central Pacific is five to six months ahead of schedule. Guam and Saipan were not supposed to be taken until sometime next year. Also the bombing of the Philippines is several months ahead of the time table.

However, along with this good news are some distressing facts about China, which nobody wants to shout about.

One is that the Japs are transporting more and more machinery to China and digging in there for a long war. Apparently they figure that the Japanese homeland is in for steady bombing and eventual occupation, so they are transferring things to the mainland of China.

China, they know better than almost anyone else, is a quagmire when any outside country tries to invade it, so it might take years for the British, American and Russian armies to root the Japs out, provided they themselves can get sufficiently entrenched.

Another discouraging factor is that we have engaged only a small part of the Jap army in the South Pacific, leaving untouched vast reserves which the Japs have been keeping at home and in China.

Finally, Chiang Kai-shek's prestige is increasingly on the wane inside China. He has been the chief exponent of cooperation with the USA, but recently his anti-U. S. war lords have been getting the upper hand. We have to face the fact that some of them would even prefer to work with the Japs than have their territory fought over by Allied armies. It doesn't make a happy picture.

Note — On the other hand, the Jap fleet has taken so many reverses that they scarcely dare return home.

Yankee Ingenuity

Prime Minister Churchill paid sincere tribute in parliament to the terrific job of the U. S. army in landing more than 1,000,000 men since D-day and moving hundreds of millions of tons of guns, food, munitions up from the beaches into the front lines. However, the real inside story of this supply miracle has not yet been told.

The ingenuity of U. S. supply officers in contriving temporary docks staggers civilian imagination.

One way of landing supplies was to drive fully loaded Liberty ships right on to the beaches and deliberately turn them over on their sides, with the sterns extending into the water.

After these Liberty ships were run aground, GI's built platforms on their sides, making simulated temporary piers. Other ships then docked alongside them.

Another impressive device still being used by supply troops are hundreds of hastily constructed railroad barges strung end to end from the beaches out to sea, where they are anchored, making a floating pier.

Note — Within two weeks after the Allies captured Cherbourg, that great French port was handling a greater amount of supplies than it did in pre-war times.

Capital Chaff

The Philadelphia Democratic convention of 1936 is remembered by some not merely because it re-nominated Franklin Roosevelt for a second term, but because a Negro preacher, Rev. Marshall Shepard of Philadelphia, has now been made recorder of deeds in the District of Columbia, despite the strong Deep South and Republican opposition. Flouting Cotton Ed Smith, Senator Carter Glass of Virginia sent his vote from a sick bed to break the committee tie and help confirm Rev. Shepard. . . . During one vitriolic senate debate recently, Senator Bennett Clark, Missouri Democrat, stung by constant questions from New Hampshire's Republican Styles Bridges, stormed: "My answer to that, as

Air Force Films

Busiest studio in Hollywood today is the First Motion Picture Unit, Army Air Forces.

Among other things, it is producing films teaching airmen how to fend for themselves when they bail out or are forced down in rough country. Crews from the Air Forces studio are even sent to the Panama jungles to prepare film material showing airmen how to deal with snakes, jungle swamps, jungle food possibilities, poison plants and first aid.

For a long time this has been taught airmen in classrooms and in the field. However, the army has discovered that this past training is useless if a soldier becomes panicky while landing. Seeing the situation on the screen, therefore, helps him if he is forced down on the water, in the desert or jungle, for the visual impression is stronger than the memory of lectures.

Another important film subject is first aid for members of bombing crews while they are in the air. Finally, the Air Forces studio is turning out rehabilitation films showing airmen who have lost a limb how they may return to civilian life. Army medics hope these films may dispel the feeling of uselessness on the part of permanently disabled airmen.

Dari Ann says

Did you ever start to make a recipe and find you had no sour milk or buttermilk? I had that happen yesterday. The "girls" were coming for lunch, and I planned—in fact WAS—whipping up my orange biscuits which require buttermilk. I remembered about using DARI-CRAFT with vinegar, and it REALLY worked! In fact, the biscuits were THE best I'd ever made. To get sour milk or buttermilk quickly, add 1 tablespoon vinegar to ½ cup DARI-CRAFT and ½ cup water and proceed. Here's the recipe:

Orange Biscuits
2 cups flour
1 teaspoon salt
½ teaspoon soda
2 teaspoons baking powder
Sift into mixing bowl, then add and mix to consistency of coarse meal.
4 tablespoons grated orange peel
¼ cup shortening
Mix following in measuring cup and add to above slowly
½ cup DARI-CRAFT
½ cup water
Scant 1 tablespoon vinegar
3 tablespoons orange juice
Knead slightly on floured board, roll and cut. Sprinkle top with sugar and orange juice. Bake in hot oven (450°) for 15 min.

Remember, the SECRET is DARI-CRAFT. You can't get it any other way. Be sure you have it for that "emergency" when you will need sour or buttermilk a jiffy.

Call Grand Jury In Report Of 'Kick Backs'

Investigation to be Made On Checks To Secretaries

JEFFERSON CITY, Mo., Oct. 4.—(P)—A Cole County grand jury was called Tuesday to investigate reports that some Missouri senators collected kick-backs from paychecks of their state paid secretaries in the 1943 legislative session.

Circuit Judge Edward T. Eversole of Festus summoned the grand jury to convene here Friday morning, Oct. 6, on request of Curtis Quimby, Cole county prosecutor, who said his preliminary inquiries "compel him to the belief that such violations may have been numerous."

Quimby called pay kick-backs "bribery" under a law which he said "prohibits public officers from making appointment or preferment for office or for employment the subject of contract."

Quimby told Judge Eversole he thought he had "enough evidence for an indictment in one case and with the aid of a grand jury I believe I could get that much evidence in several more."

Sheriff Harry Mackey was instructed to select the 12 grand jurors from a special venire to be drawn up by the clerk of the circuit court.

Says Part Of Pay Taken

The second grand jury probe of Missouri's legislature in three years was set off by the sworn statement of a 19-year-old Jefferson City girl, Miss Ruth Riemenschneider, that State Sen. George H. Miller of Sedalia had taken \$164.80 of her pay when she served as his stenographer for three months in 1943.

When Miller said "other senators did as I did," Quimby began checking up on them. But he told the court several persons refused to answer his questions and he needed the power of a grand jury to compel witnesses to testify.

Miller, Republican nominee for attorney general, charged Miss Riemenschneider's statement was inspired by "friends of one of my primary opponents" and made this explanation:

That she has hired for part time work at \$100 a month "with the understanding the remainder of the (\$150 a month) stenographic salary was to be paid to a woman in Sedalia to do the balance of my senate secretarial work."

"In my opinion there is nothing either wrong or unethical in this," Miller said.

Quimby first made his request for a grand jury to Circuit Judge Charles H. Jackson of Mountain

'For Germans Only'

"For Germans Only" reads the sign on the trolley car at left, in photo taken in Praga, Warsaw suburb, during height of fierce fighting between Polish underground forces and Germans. The Polish patriot soldiers in the picture intend their Tommy-gun bullets "For Germans Only," too.

Grove last Friday. But Jackson—like Eversole, substituting in this circuit for Judge Sam Blair who is in military service—declined to rule on it because Eversole was scheduled to preside over the October term which opened yesterday.

So Quimby renewed his request before Judge Eversole.

The law which Quimby cited says: "every officer who shall, directly or indirectly, accept or receive of another any sum of money or other valuable consideration, gratuity or reward, or any promise of security thereof: first, upon any agreement to give or procure by his act, interest or influence or other means, any appointment, office or place of trust, or any preferment or emolument, or to aid or assist in procuring the same for another person; or, second, in consideration of any office or appointment, place or preferment, or emolument, or any act, interest or influence, aid or assistance, by any means, in procuring or attempting to procure any such appointment, office, place or trust, preferment or emolument, shall, on conviction, be adjudged guilty of bribery."

Another section also declares it an act of bribery to accept an office or appointment under any such agreement.

The maximum punishment for either offense is seven years in the penitentiary.

The last grand jury investigation of the Missouri legislature was in 1941 after reports of slush funds pouring into lawmakers' pockets.

Seven persons were indicted and two were convicted of soliciting bribes, but they won re-trials and acquittal.

Boy Happy To Be Back Home

J. T. Blankenship, 11 year old son of Mr. and Mrs. R. H. Blankenship, who ran away from home last week and was gone for several days, is back home and back in school. "I sure am glad to be back and I won't run away again," the boy told police when they talked to him.

The boy left Monday, September 25, after school. He hitch hiked rides through to Marshall and over to Glasgow, where he was found by the Chief of Police, of that place, and turned over to his parents Sunday. He told of getting rides, and of going to near Miami, where he went to a farm house and stayed one night.

He told the woman there, the police quoted him as saying, that he had taken the wrong road and wanted to stay there that night. She took him in. The next day he went down to near Glasgow and met a fisherman, stayed with him, and went fishing.

The police quoted the boy as saying he caught an eight and one half pound cat fish which he sold for \$2.50, also trapped some, and had a general good time, but was certainly glad to be back home.

His parents live at 409 North Park avenue.

Smithton Club At Kahrs Home

The Smithton Home Economics club met Wednesday at the home of Mrs. Stanley Kahrs with Mrs. Frank Monsees, Mrs. Tena Monsees and Mrs. H. A. Sanders assisting.

The devotional service was in charge of Mrs. Harry Demand.

Mrs. O. R. Demand, president, conducted the business session during which it was reported the club had donated one-half bushel of tomatoes and 12 dozen cookies to the USO picnic held August 7 and \$3.60 had been received for waste fat collected and sold by the club. The club decided to sponsor a waste paper drive, in charge of Boy Scouts, in the near future. The club will donate cookies for the blood bank in Sedalia October 9. Cookies are to be left at the home of Mrs. Frank Bremer not later than the early morning of October 9.

Mrs. Frank Monsees, Mrs. Kalo Monsees and Mrs. Frank Bremer were appointed as the refreshment committee to serve at the USO dance October 7. Members of the club are invited to attend the meeting that evening.

Following the business session, Mrs. Mayme Selken showed pictures and gave a talk on her trip to Guatemala, Central America, to visit her son, Capt. Frank M. Selken and family.

Visitors were Mrs. Melford Monsees and daughter of Kansas City, Miss Emma Monsees and Mrs. Ed Eichholz.

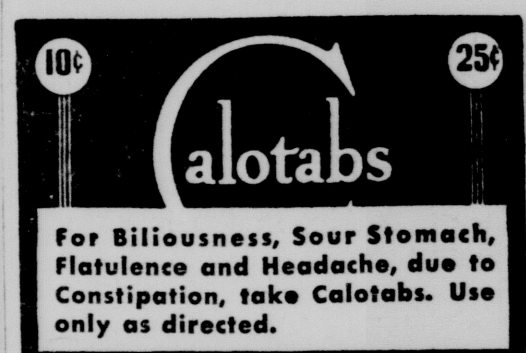

In The Service

An Air Service Command (somewhere in England)—Pvt. Eldon L. Shoemaker, son of Mr. and Mrs. John D. Shoemaker, Sedalia, has won high commendation for helping to shatter world's production records repairing life rafts, "Mae Wests" and de-icers. He and his fellow mechanics last month repaired the largest number of rubber life-saving devices recorded since the Air Service Command began operations

Hears from Grandson, Prisoner of War

Mrs. George Green of Smithton received a letter Thursday from her grandson, Sgt. Welton Teter, prisoner of war, who is in a prison camp near Berlin. He stated that he was healthy and all right and asked that she send him candy bars, cigarettes and concentrated foods. This is the second word received from him directly since he was taken prisoner last spring.

June, 1943, he attended Smith-Cotton high school.
